ASSEMBLY & CARE GUIDE

ROOF

Placing the Cushion

STEP 1

Unpack the Huxton bed frame, cushion and cover. (The cushion and cover come in a separate package). Insert the cushion inside the cover and zip shut.

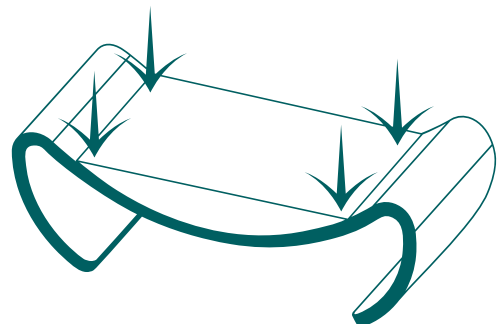

STEP 2

Place the cushion over the bed, aligning the attachment strips on the underside of the cushion with the attachment strips on the bed frame. Ensure the cushion is aligned with the front and back edge of the frame.

STEP 3

Gently place the cushion on the bed, pressing down to ensure the attachment strips form a solid connection.

Caring for Huxton

GENERAL MAINTENANCE

Use a soft, dry cloth to regularly dust Huxton. Microfiber cloths work well. For routine cleaning, use a damp cloth followed by a dry cloth to prevent moisture from sitting on the surface. Avoid soaking the wood.

CLEANING SPILLS

Wipe up any spills immediately to prevent staining or damage to the finish. Use a mild soap solution (e.g. diluted dish soap) for tougher spots, followed by wiping with a damp cloth and drying thoroughly.

POLISHING

Given the low gloss finish, frequent polishing isn't necessary. If you do polish, use a product recommended for low-gloss finishes and test it on a small, inconspicuous area first. Avoid using wax, as it can build up and create a dull, cloudy appearance.

ENVIRONMENTAL FACTORS

Maintain a stable humidity level in the room to prevent the wood from expanding or contracting. Use a dehumidifier in very humid conditions and a humidifier in very dry conditions.

Avoid placing Huxton near heat sources like radiators or fireplaces.

Keep Huxton out of direct sunlight to prevent fading or discoloration.
