

Maximillian

Inspired by a creature of habit, Maximillian resembles a stately daybed, befitting of a punctual pup who's always first to the door for his walks. Maximilian's design features strong, clean lines that command attention. Each piece is hand-sanded to a smooth finish and treated with a high-quality varnish that protects the wood while enhancing its visual tones. Paired with a water-repellent cushion that features a removable, washable cover, this is a throne on which even the most dignified dogs can let themselves melt. Minimal assembly required.
